STAFF REPORT

DATE: February 7, 2024

FOR: Mobility and Vehicles Committee SUBJECT: General Services Director's Report

RECOMMENDATION

Receive and file report.

BACKGROUND

At each meeting of the Mobility and Vehicles Committee, the General Services Director provides information related to the Village transportation program and the operational costs of the Village vehicle fleet. The reports are varied at each meeting and are submitted to the Committee to provide a broad spectrum of information on a variety of topics. Attached to this report are lists of (1) GRF Vehicles and (2) GRF Specialty Equipment.

DISCUSSION

The Bus transportation system consists of the following three programs:

The **Fixed Route** service, also known as the **Easy Rider** provides transportation for residents through neighborhood fixed routes and commercial fixed routes. A total of nine passenger shuttle buses are used for this program.

The Laguna Woods Village **Journey** program provides curb-to-curb transportation for preapproved residents with medical needs. Residents schedule their rides in advance by calling the Transportation office. Journey drivers are employed by Village Management Services. One to two shuttle buses are used for this program.

The **BOOST** on-demand rideshare program is provided via a contractual partnership with Lyft Inc. BOOST services Laguna Woods Village residents when the Fixed Route service is not operating. Residents can schedule a ride via mobile application or by calling the Transportation office. Drivers are contracted through Lyft Inc. and use their personal vehicles.

Ridership Data and Trends

When residents and their guests ride the Village buses or utilize the Journey or BOOST programs, their trips are tracked. Each time a rider enters a bus, the RFID chip on their Identification Card records a 'trip.' Trips provided through the Journey program are tracked by

GRF Mobility and Vehicles Committee Director of General Services Report February 7, 2024 Page 2

the 'Ride Now' scheduling software. Trips provided through the BOOST rideshare program are tracked by data provided by Lyft Inc.

Ridership trends for the Easy Rider fixed route, Journey program, and BOOST program were significantly affected by State required COVID-19 social distancing practices.

Easy Rider Fixed Route System

Beginning March 21, 2020, the Fixed Route program reduced its operating hours to Monday through Friday, 9 to 5 p.m., to adjust to COVID-19 social distancing requirements, subsequently causing a reduction in ridership. Ridership prior to the decrease in March 2020 was at 9,628 trips for the month of February 2020. Ridership gradually increased beginning the second quarter of 2021, concluding the year with an overall monthly average of 5,302 rides for 2021. For 2022, the monthly ridership averaged 6,333 trips for January through December. The average monthly ridership between January to December 2023 was 6,705 trips. See attachment #1.

Journey Program

Journey continues to operate Monday through Sunday, with its hours operating from 8 to 4 p.m. Ridership decreased in March 2020, with a gradual increase beginning the third quarter of 2020. For 2021, the monthly average of completed rides was 512 trips. In 2022, the average number of completed rides increased, with a monthly average of 605 completed trips from January through December. The average number of completed trips between January and December 2023 was 530 trips. See attachment #2.

BOOST Program

Beginning March 24, 2020, BOOST reduced its operating hours to Monday through Friday, 7 to 9 a.m. only. All weeknight and weekend hours were suspended in response to the Governor's Stay at Home order and the closing of all Clubhouses and activities. Subsequently, BOOST trips decreased substantially in 2020. Trips gradually increased in the second quarter of 2021, totaling a monthly average of 149 trips from January through December. The total monthly average for 2022 was 417 trips. The average number of completed trips between January and December 2023 was 524. See attachment #3.

In late March 2021, Boost's operating hours extended to Sundays for transportation to Church. In mid-June 2021, after the Village Clubhouses reopening, BOOST's operating hours extended to include evenings and weekends. Current Boost hours are:

- Monday through Friday, 7 to 9 a.m. and 5 to 10 p.m.
- Saturday, 8 a.m. to 10 p.m.
- Sunday 8 a.m. to 5 p.m.

DATE: February 7, 2024

FOR: Mobility and Vehicles Committee

SUBJECT: 2024 Vehicle CIP - Security Vehicles Specifications

RECOMMENDATION

Approve the 2024 Vehicle CIP specifications included in Attachment 1, Vehicle Specifications Spreadsheet for Security Vehicles.

BACKGROUND

The General Services Department is responsible for the maintenance and replacement of approximately 260 Golden Rain Foundation (GRF) vehicles and 160 special equipment units. On September 5, 2023, the GRF Board approved an overall 2024 Vehicle Replacement budget of \$1,493,000 to replace GRF vehicles, including \$191,000 for three Security vehicles. The GRF Mobility and Vehicles Committee Charter states that the Mobility and Vehicles Committee shall review the specifications recommended by the Managing Agent for the procurement of GRF vehicles. Each year, the General Services Department presents the proposed vehicle specifications to the Mobility & Vehicles Committee for review and approval.

During the development of the annual Vehicle CIP, Fleet Maintenance staff seeks input from departments regarding the vehicle specifications that are required to ensure that work can be performed safely, efficiently, and economically. In addition, in 2022 General Services staff completed a Fleet Right-Sizing Assessment that is projected to save approximately \$620,000 over a four-year period. During the Fleet Right-Sizing Assessment, General Services staff met with department heads and staff from each work center to make sure the number and type of vehicles being used are appropriate for the work center's needs. During the 2022 Fleet Right-Sizing Assessment, the Security Department downsized their Security fleet by two security vehicles and one F-250 truck.

DISCUSSION

The attached 2024 Vehicle Specifications for Security Vehicles spreadsheet (Attachment 1) includes the number of vehicles and related funding approved by the GRF board for the 2024 fiscal year. In addition, the spreadsheet includes the specifications recommended for Security vehicles. These specifications were obtained from manufacturer's websites for the recommended vehicle make, model, and vehicle trim level. The vehicles purchased will be significantly similar to what is approved, however, the exact specifications may differ if vehicle manufacturer offerings vary at the time of purchase.

These vehicles specifications were presented at the November 6, 2023 Mobility and Vehicles Committee meeting for review and consideration. The Committee recommended that this item be brought back at a future meeting with additional information to confirm that the vehicles are needed. The Security Director provided the information in the following Table A that describes how the 17 Security vehicles are used. In addition, the 2024 Vehicle Specifications for

Each year, the General Services Department presents the proposed vehicle specifications to the Mobility & Vehicles Committee for review and approval.

During the development of the annual Vehicle CIP, Fleet Maintenance staff seeks input from departments regarding the vehicle specifications that are required to ensure that work can be performed safely, efficiently, and economically. In addition, in 2022 General Services staff completed a Fleet Right-Sizing Assessment that is projected to save approximately \$620,000 over a four-year period. During the Fleet Right-Sizing Assessment, General Services staff met with department heads and staff from each work center to make sure the number and type of vehicles being used are appropriate for the work center's needs. During the 2022 Fleet Right-Sizing Assessment, the General Services Department identified that the Transportation fleet could be reduced by one bus. This reduction will take place in 2025 and will save GRF an estimated \$200,000.

DISCUSSION

The attached 2024 Vehicle Specifications for Transportation Bus (Attachment 1) includes the number of vehicles and related funding approved by the GRF board for the 2024 fiscal year. In addition, the spreadsheet includes the specifications recommended for the Transportation Bus and a recent vehicle repair history. These specifications were obtained from manufacturer's websites for the recommended vehicle make, model, and preferred options. The vehicles purchased will be significantly similar to what is approved, however, the exact specifications may differ if vehicle manufacturer offerings vary at the time of purchase.

These vehicles specifications were presented at the November 6, 2023 Mobility and Vehicles Committee meeting for review and consideration. The Committee recommended that this item be brought back at a future meeting. Table A includes a list of vehicles assigned to Transportation, and includes a vehicle description, capacity, model year, and approximate mileage. Although the list includes a route the bus may be assigned to, the vehicles are rotated
