

OPEN MEETING

**REGULAR MEETING OF THE THIRD LAGUNA HILLS MUTUAL
ENERGY COMMITTEE**

**Tuesday, October 3, 2017 - 10:00 A.M.
Laguna Woods Village Community Center Cypress Room
24351 El Toro Road**

NOTICE and AGENDA

1. Call to Order
2. Acknowledgment of Media
3. Approval of the Agenda
4. Approval of Meeting Report for August 1, 2017
5. Chairman's Remarks
6. Member Comments (*Items Not on the Agenda*)
7. Department Head Update

Consent:

All matters listed under the Consent Calendar are considered routine and will be enacted by the Committee by one motion. In the event that an item is removed from the Consent Calendar by members of the Committee, such item(s) shall be the subject of further discussion and action by the Committee.

8. Project Log
9. SCE Street Light Outage Report
10. EV & Golf Cart Report

Open Pilot Initiatives:

11. Walkway Lighting at Gates 5 & 6 Update (oral discussion)
12. Garden Villa Emergency Light Fixtures Update (oral discussion)

Reports:

13. SCE Street Light Acquisition Update (oral discussion)
14. Energy Consultant Services Update (oral discussion)
15. Solar Project Completion – Documentation/Monitoring/Final Payoff (oral discussion)
16. Solar Project Maintenance Contract (oral discussion)
17. Street Light Acquisition Consulting Contract (oral discussion)
18. EV Charging Stations at Stand Alone Laundry Rooms (oral discussion)
19. Laundry Room Equipment ROI (Mark)
20. Criteria for EV Reports (Bert and Steve)

Items for Future Agendas:

- *LED Solar Street Lights (low priority)
- *2-story Buildings LED Lighting Pilot Program (low priority)
- *Costs for Level 2 Charging Stations at Stand-alone Laundry Rooms (low priority)
- *Investigate the installation of conduit from the electric panels in GV to service the carports
- *Install Level II EV Bollard Chargers (on the streets)
- *2-3 Year Energy Plan: (Verbal Discussion)
 - a) Distributed Energy Resources Contract
 - b) Microgrid Investigation
 - c) EV Level 2 from Street Lights
 - d) Street Light LED Replacement Program
 - e) Street Light Maintenance Contract

Concluding Business:

Date of next meeting – December 5, 2017
Adjournment

Bill Walsh, Chair
Ernesto Munoz, Staff Officer
Telephone: 268-2281

OPEN MEETING

**REGULAR MEETING OF THE THIRD LAGUNA HILLS MUTUAL
ENERGY COMMITTEE**

Tuesday, August 1, 2017 - 9:00 A.M.
Laguna Woods Village Community Sycamore Room
24351 El Toro Road

MEMBERS PRESENT: Bill Walsh – Chair, Susan Caine, John Frankel,
Rosemarie di Lorenzo-Dickens, Annette Sabol
Soule, Bert Moldow, Burt Baum, Susan Caine
Advisors: Steve Leonard, Doug Rook

MEMBER ABSENT: Leon St. Hilaire

STAFF PRESENT: Ernesto Munoz - Staff Officer, Mark Stal, Laurie
Chavarria

1. Call to Order

Chair Walsh called the meeting to order at 9:01 A.M.

2. Acknowledgment of Media

Chair Walsh noted that Lucy Parker from the Video Club is here to record the proceedings. No members of the press were present.

3. Approval of the Agenda

Director Moldow added Garden Villa Rec Room Exit Signs as item 15a. The agenda was approved as amended.

4. Approval of Meeting Report for June 6, 2017

The Meeting Report of June 6, 2017 was approved as presented.

5. Chairman's Remarks

Chair Walsh deferred his comments until after the presentation of Item 8.

At 10:21 am Chair Walsh commented that staff is stretched to the limit with multiple projects. He would like the Committee to provide priorities for staff. **Agenda Item # 4**

Third Energy Committee
August 1, 2017
Page 2 of 5

they can accomplish at least one of the items. We will discuss the open pilot initiatives and let staff know which project to focus on.

6. Member Comments (*Items Not on the Agenda*)

There were no member comments.

7. Department Head Update

Ernesto Munoz introduced the consultants from Sage Renewable Energy and gave a brief background on their experience.

8. Sage Renewable Energy Consultant

David Williard & Elliott Feldman – independent 3rd party consultants from Sage Renewable Energy provided a power point presentation and discussed the consultant services they provide.

Discussion ensued regarding Community Choice Aggregation, O&M Contracts, Energy Generation, Battery Storage, Time of Use, Fuel Cells, Solar Street Lights, LED Fixtures, Energy Master Planning, Administrative Meter Fees, Rate Payers Advocacy, Billing Rate Accuracies and Aging Electrical Infrastructure Issues

By consensus, staff was directed to schedule a meeting with the Board Presidents and M&C Committee Chairs to discuss the possibility of advertising for an energy consultant. A copy of the Sage Renewables PowerPoint presentation will be given to all Board members.

Consent:

All matters listed under the Consent Calendar are considered routine and will be enacted by the Committee by one motion. In the event that an item is removed from the Consent Calendar by members of the Committee, such item(s) shall be the subject of further discussion and action by the Committee.

Items 9 and 11 were pulled from the Consent Calendar for discussion. A motion was made and unanimously carried to approve the consent calendar as amended.

9. SCE Street Light Outage Report

Director Moldow asked about a missing street light pole at Building 3323 and requested more information. In the future he would like to see more detailed information provided on this report.

10. Project Log

The project log was not pulled for discussion and was approved as written.

Agenda Item # **4**

Page **2** of **5**

Third Energy Committee
August 1, 2017
Page 3 of 5

11. EV Decal Report

By consensus, staff was directed to change this report in the future to include all reported electric vehicles in the community and to add all reported golf carts. Information should include the address of the registered vehicle and/or golf cart.

Open Pilot Initiatives:

12. LED Solar Street Lights (oral discussion)

Ernesto Munoz spoke briefly about LED Solar Street lights and recommended that this project be placed on hold until after the light poles are purchased and the fixtures have been converted to LED, and lighting levels evaluated.

By consensus, it was determined that this is a low priority item and staff was directed to add this to "Items for Future Agendas."

13. Walkway Lighting (oral discussion)

Ernesto Munoz and Mark Stal spoke briefly about their concerns and the challenges in upgrading the walkway lighting. Staff has retained U.S. Energy as an on-call consultant for GRF. They can investigate and provide us with a list of necessary infrastructure improvements at Gates 5 and 6.

Discussion ensued regarding photometric studies, tree trimming, laundry room lighting, fixture replacement and LED bulbs.

A motion was made that staff enter into an agreement with U.S. Energy, not to exceed \$50,000, for consultation to include the walkway lighting improvement needs at Gates 5 & 6. By a vote of 5/0/1 (Director Moldow abstained), the motion passed.

14. Garden Villa Emergency Light Fixtures (oral discussion)

Chair Walsh provided an update on the emergency light fixture pilot program at building 4010. Discussion ensued regarding timing, staff availability and the timeframe needed to complete the program

By consensus, staff was directed to install emergency light fixtures in the garages of 5 Garden Villa buildings in 2017. The number of buildings should be increased in 2018 and all Garden Villa buildings should be completed within 3 years.

15. 2-story Buildings LED Lighting Pilot Program (oral discussion)

Mark Stal provided a brief update on the LED lighting program for 2-story buildings. Discussion ensued regarding ROI, aesthetics, cleaning, and fixture type.

Agenda Item #

4

Third Energy Committee
August 1, 2017
Page 4 of 5

By consensus, it was determined that this is a low priority item and staff was directed to add this to "Items for Future Agendas."

15a. Exit Signs/Lights in Garden Villa Rec Rooms

Director Moldow asked about the installation of the emergency exit signs that are still needed in a few Garden Villa Rec Rooms. Ernesto Munoz stated that staff will make this a priority and get this work completed by engaging the services of Super Green.

Reports:

16. Solar Project Turnover and Completion Process (oral discussion)

Ernesto Munoz discussed the turnover and completion process for the solar project. Discussion ensued about meetings with Solar Optimum, completion of SCE work, punch lists, equipment manuals and training. A request for proposal for O & M will be sent out to select contractors, including Sage Renewables. A recommendation for a contract award will be brought to the M&C Committee for review.

17. SCE Street Light Acquisition Update (oral discussion)

Ernesto Munoz discussed the request for proposal and the need to retain a consultant to assist with the process, including fixture conversion and O & M. This proposal will be separate from the request for an energy consultant.

By consensus, staff was directed to release the RFP. Staff will then provide the Committee with a copy of RFP via email and hard copy.

18. Level 2 EV Opt-Out Report (w/ Opt-out Resolution & Waiver Form)

Ernesto Munoz and Chair Walsh briefly discussed the opt-out report and addressed questions from the Committee.

Director's Moldow and Baum left the meeting at 11:53am.

19. Costs for Level 2 Charging Stations at Stand-alone Laundry Rooms

Mark Stal provided costs associated with adding level 2 charging stations at stand-alone laundry rooms and answered questions from the Committee. Discussion ensued regarding panel sizes, European Sun Flowers, ChargePoint, budgets and priorities.

By consensus, staff was directed to contact ChargePoint and set up a meeting to discuss the feasibility of level 2 charging stations at stand-alone laundry rooms.

Agenda Item # 4

Page 4 of 5

Third Energy Committee
August 1, 2017
Page 5 of 5

However, by consensus, it was determined that this is a low priority item and staff was directed to add this to "Items for Future Agendas."

20. Laundry Room Equipment ROI Report

Director di Lorenzo-Dickens provided a hand out with information on laundry room equipment. Discussion ensued regarding minimum number of washers and dryers needed, commercial dryers and variable rates.

By consensus, staff will bring a report to the next meeting with additional information on costs and ROI and at that time, the Committee will provide further direction to staff.

21. 2-story Buildings LED Lighting Pilot Program Update (Mark)

This topic was discussed and direction given to staff under Item 15.

22. Cost of Commercial Dryers & Average of Current Usage

Mark Stal discussed the cost of commercial dryers and answered questions from the Committee.

Items for Future Agendas:

- LED Solar Street Lights
- 2-story Buildings LED Lighting Pilot Program
- Costs for Level 2 Charging Stations at Stand-alone Laundry Rooms
- Investigate the installation of conduit from the electric panels in GV to service the carports
- Install Level II EV Bollard Chargers (on the streets)
- Budget for the Replacement of Walkway Lights (particularly in Gates 5 & 6)
- 2-3 Year Energy Plan: (Verbal Discussion)
 - a) Distributed Energy Resources Contract
 - b) Microgrid Investigation
 - c) EV Level 2 from Street Lights
 - d) Street Light LED Replacement Program
 - e) Street Light Maintenance Contract

Concluding Business:

Date of next meeting – October 3, 2017

Adjournment

The meeting was adjourned at 12:18p.m

Bill Walsh, Chairman # 4

Third Mutual Energy Committee Project Log (9/26/2017)

#	Type	Name	Description	Status	Estimated Completion	Budget	Last Updated
1	904 Maint. Svc	Solar Project	This project is dedicated to installing solar panels on multiple Garden Villa Buildings.	Permission to operate was been received on all 12 buildings. Permit signoff by the City of Laguna Woods was submitted to SCE on June 30th, before the NEM-1 deadline, and thus will be the rate schedule for all solar interconnections. All systems and monitoring are operational. Staff is currently processing the contract for the Operations and Maintenance of the systems. Final close out of the project will be occurring in late September.	September 2017	'16 Budget: \$2,312,750 Invoiced: \$2,302,750 Balance: \$10,000 '17 Change orders: \$250,385 Invoiced: \$250,385 Balance: \$0	25-Sep
2	904 Maint Svc	Third LED Lighting Upgrades	This project will replace existing CFL lighting with LEDs in all common areas throughout Third Mutual. The first phase includes LH-21 breezeways and stairwells, GV breezeways and stand alone laundries. Subsequent phases will investigate 2-story buildings and walkway lighting.	CFL lighting in LH-21 and GV buildings has been completed. A pilot has been performed on 2-story buildings 966 and 967. Staff has given recommendations and is awaiting direction. Staff is also executing a contract with US Energy for lighting consulting services related to walkway lighting. The contract is currently awaiting board signature and a study will be performed by US Energy after contract completion.	Ongoing	2017 Exterior Lighting Budget: \$250,000 Encumbered: \$97,237 Balance: \$152,763	25-Sep
3	904 Maint Svc	Solar Street Light Pilot Program	Solar powered street lights will be installed by 3 different contractors south of the Towers. The goal is to determine the street light with the best price and performance. This will then be compared with the cost of trenching for traditional street lights to improve the quality of lighting throughout Third Mutual.	The first installation was completed by Supergreen Solutions on Sosiega. This project has been tabled until the existing streetlights have been acquired from Southern California Edison and upgrades have been installed.	Ongoing	Not Budgeted	25-Sep
	904 Maint Svc	Level 2 EV Charging Stations in GV Garages	This item was requested to be placed on the Energy Project log at the June 6, 2017 Energy Committee Meeting.	An estimated cost of \$1500 - 1800 per charging station was obtained from a contractor. This work does not include any engineering, and if required by the city, would be at an additional cost. If the decision to move forward is made, additional bids would be solicited and a contractor selected.	Investigation phase	Not Budgeted	25-Sep

Agenda Item # 8

Page 4 of 2

5	904 Maint Svc	Level 2 EV Charging Stations at Stand-alone Laundry Rooms	Staff is investigating the costs involved with installing charging stations at stand-alone laundry rooms. This will include a panel upgrade and running conduit and conductors to a designated location where the charging station will be installed. These costs do not include the installation of the charging bollard.	A proposal was received to perform this work from a contractor. A cost was provided for two scenarios; an installation not requiring trenching through concrete or asphalt, and one with. The proposed cost with no saw cuts and up to 30' of conduit was \$12,650. The cost with an additional 30' of civil work was \$19,150. If the decision to move forward is made, additional bids would be solicited and a contractor selected. An additional bid is being solicited from ChargePoint which would include the installation of a charging bollard.	Investigation phase	Not budgeted	25-Sep
9	920 Projects	SCE Street Light Acquisitions	This report will give recommendations regarding LS-1 Option E and possibly buying all of SCE's street lights in Third Mutual.	Staff was directed by the Energy Committee on August 1st to release an RFP for consulting services to assist with the street light acquisition process; the conversion of fixtures to LED; and the subsequent operations and maintenance for the system. Two vendors will be interviewed and a report will be brought to the M&C Committee to award a contract. The Board approved the SCE purchase agreement and a signed copies have been sent to SCE. Staff is awaiting the final executed version of the agreement from SCE.	N/A	Budgeted for 2018	25-Sep

Agenda Item # 10

STAFF REPORT

DATE: October 3, 2017
FOR: Energy Committee
SUBJECT: EV Charging Stations at Stand-alone Laundry Rooms

RECOMMENDATION

Receive and file.

BACKGROUND

Based on the increasing level of electric vehicles in the community, staff was directed to estimate the costs associated with the installation of charging stations at stand-alone laundry rooms.

DISCUSSION

The existing electrical panels at the stand-alone laundries facilities currently have a 100 amp service capacity. In the event charging stations were to be added at these locations the service panel, conductors, and possibly conduits, would likely need to be upgraded to accommodate the increased loads. A minimum of 150 amp service would be required for the addition of these charging stations, but if staff is directed to consider a charging station project, staff's recommendation would be to upgrade to 200 amps in order to provide ample future capacity. Upgrading to a 200 amp panel would allow for additional upgrades, including possible future charging stations at nearby carports.

There are two possible scenarios for charging stations, depending on location. The first scenario is where an installation is possible without having to perform any trenching through concrete or asphalt. This is typically possible where the conduit may be mounted to the block wall surrounding the laundry and the desired location is adjacent to the wall. The second scenario is where civil engineering work would be required to bring a conduit to the charging location.

The charging locations would use existing parking spots, and thus reduce the available parking in that area. The electricity used to charge the vehicle would be metered, and the cost of this electricity could be set as desired to recover the installation costs. It is possible to set multiple electrical cost levels depending on who is utilizing the charging station.

The estimated cost of installation per laundry facility, where no trenching is required is \$13,000. This includes everything except the charging bollard, permits, parts, labor, and parking reconfiguration, for up to 30' of conduit. The estimated cost for a similar installation is

where trenching is required is \$20,000. Depending on the particular location 30' may not be sufficient to reach the carport, and this would be an additional cost.

These estimated costs are based on the assumption that the existing SCE transformers will be able to support these upgrades. If multiple upgrades are performed in an area serving the same transformer, additional engineering and possible transformer upgrades may be required, adding to the estimated costs.

FINANCIAL ANALYSIS

No funding is currently allocated for this project in for the 2017 fiscal year.

Agenda Item # 18

Page 2 of 2

STAFF REPORT

DATE: October 3, 2017
FOR: Energy Committee
SUBJECT: Laundry Room Equipment Return on Investment (ROI)

RECOMMENDATION

Review and provide direction.

BACKGROUND

At the August 1, 2017 Energy Committee Meeting, Director di Lorenzo-Dickens provided a hand out with information on laundry room equipment. Staff was directed to bring a report to the next meeting with additional information on costs and ROI for the Committee to review in order to provide further direction to staff.

DISCUSSION

The Purchasing Department was asked to source a commercial dryer to replace the existing residential models. The unit selected by Purchasing was a Maytag brand, which is the same brand as the existing washers. The cost for the unit is approximately \$900. With the small amount of parts required and the labor for installation, the total cost for installation is estimated at \$1000.

The revenue generated from washing machines in 2016 was \$101,554. If the inventory for dryers is reduced to 331 as previously suggested, the cost of installation would be \$331,000. If the dryer cost is set to \$0.50, similar to the charge for the washing machines, it will generate additional revenue of \$101,554. This calculates to a simple ROI of 3.26 years.

There are several other sources of income or savings that are not included in this ROI. It does not include any income that would come from the sale of the existing machines. Additionally, there would be energy savings from several sources. First, the commercial dryers are more energy efficient, and thus would use less electricity per load. It has been noted that in the current situation where the dryers are free, residents are more likely to put the dryer on for much longer than is necessary. There are also residents that wash their clothes in their manors and bring the clothes to the laundry room for drying. A coin operated dryer would greatly reduce both of these situations. Lastly, with all new machines, the cost of repairs and maintenance would be greatly reduced. Most likely these factors would bring the ROI below 3 years.

Agenda Item # 19

Page 1 of 2

FINANCIAL ANALYSIS

If coin operated commercial dryers were to be purchased and installed in 2017, a supplemental appropriation would be required.
