## Approval of the Regular Meeting Report of June 30, 2020

A motion was made and carried unanimously to approve the committee report as presented.

#### **Chair Remarks**

Director Gilmore commented the need to get resolution on the section 5500 checklist at this meeting.

## **Department Head Update**

Steve Hormuth, Controller, provided update in Betty Parker's absence on Civil Code 5500 reporting, insurance and investments and the 2021 Budget.

## **Member Comments (Items Not on the Agenda)**

Director Armendariz commented on the discrepancy between the approved United Finance Checklist having 5 items against 6 items listed in Civil Code 5500. Additionally, Director Armendariz commented on section Civil Code 5502 and the resolution allowing staff to perform this transaction on behalf of the board.

Director Margolis commented on addressing insurance items at weekly Friday meeting with staff and Beecher Carlson.

## Review Preliminary Financial Statements dated July 31, 2020

The committee reviewed Financial Statements for July 31, 2020. Discussion ensued and questions were addressed. The following items were requested:

- Present a summary and timeline of how the Contingency fund expenses will be treated for the remainder of 2020 and going forward on January 1, 2021.
- Present an analysis for staff recommendations of reclasses from moisture intrusion expenses from the Contingency Fund to the Reserves fund.

### Civil Code Section 5500 & 5510 Verification and Compliance

Director Gilmore commented on needing to address gaps in 5500 and 5510 verification and compliance. Director Gilmore asked Director Armendariz to provide background information on this topic. Discussion ensued and questions were addressed. A motion was made by Director Margolis, seconded by Director Armendariz, and passed by a vote of (3-2), to recommend the board approve the creation of a separate bank account for reserves at the next open session board meeting. Additionally, the committee requested a staff report being included at the next board meeting that reflected the pros and cons of adding an additional depository account for reserves.

## **Reserve Expenditure Category**

Director Gilmore commented on labor expenditures being reflected in the Reserve Accounts for expenses for United Mutual. Steve Hormuth, provided a verbal update on how these expense are placed into the Mutual Reserve accounts via the monthly closing process and intercompany allocations. By consensus, the Committee requested staff present an introductory report at the next meeting as well as having this topic be indefinitely placed on the agenda until further notice by the committee or the committee chair. The committee requested the following:

- Do the actual individuals, no matter who they are, fill out their own time cards for what they are working on that day? Or does someone else put this information into the time card?

## **Future Agenda Items**

Updated Section 5500 report regarding the additional bank account Discuss Contingency Fund Classifications Reserve Expenditure Category Creation of Budget Ad-Hoc Committee (for 2022 Business Planning)

#### **Member Comments**

Director Margolis commented on wanting to see the staff report for the additional bank account at the United board meeting. Also, commented on speaking with Jeff Parker about a possible reapproval on the 2021 business plan.

Director Randazzo clarified that its not two banks, but two deposit accounts at the same banking institution.

Director Armendariz commented on insurance and the possibility that if annual insurance premiums are lower, there is no reason why we couldn't adjust the budget approval.

Director Achrekar commented on limiting time of discussion to three minutes.

Director Torng commented on disagreeing with Director Achrekar.

## **Date of Next Meeting**

Tuesday, September 29, 2020 at 1:30 p.m.

The meeting recessed to closed session at 3:10 p.m.

#### **MEMORANDUM**

To: United Finance Committee

From: Betty Parker, CFO
Date: September 29, 2020
Re: Department Head Update

## Financial Highlights

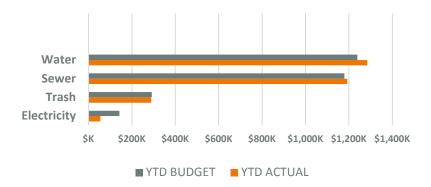

■ SUMMARY: For the year-to-date period ending August 31, 2020, United Mutual was better than budget by \$5.5 million primarily due to timing of programs, especially in the areas of compensation \$2.1M, outside services \$2.1M, and materials \$1M. Various programs were put on hold in mid-March due to the COVID-19 pandemic; however by August, most were restarted.

INCOME STATEMENT

- COMPENSATION: Actual compensation and related costs came in at \$7.6 million, with just under \$6.2 million in operations and \$1.4 million in reserves. Combined, this category is 22% favorable to budget. Staffing was reduced through employee furloughs beginning mid-March due to the Covid-19 pandemic. For United, the most significant impacts were in Maintenance and Landscape.
- UTILITIES: In total, this category was favorable to budget by \$33K. Trash came in on budget; electricity was favorable due to energy consumption offset by solar credits. Unfavorable variance in water resulted from high water usage during the summer.

## Discussions

**2021 Budget**: On September 8, 2020, United Board of Directors approved the 2021 Business Plan with no increase in the basic assessment. Review of funding for property insurance premiums, which vary by manor, is ongoing through renewal. Assessment letters, along with required annual disclosures, will be mailed to members by December 1, 2020.

**2021 Collection & Lien Enforcement Policy:** On September 8, 2020 the Board approved the 2021 Collection & Lien Enforcement Policy through Resolution 01-20-61. The updated policy highlights owners continuing obligation to pay assessments despite temporary closures or modified availability of common area facilities and amenities, absent a mandate from state officials or as otherwise determined by the Board.

**Section 5500/5510 Update:** Due to Covid-19 orders, information required for Board review of monthly financials is being provided to all board members via email. For signature requirements, authorization is obtained from two board members prior to remittance of reserve payments to vendors. Procedures for review of labor charges will be discussed further.

**Insurance Update**: Property valuation for the community was completed by Duff & Phelps. The insurance broker Beecher Carlson presented a renewal strategy update to All Boards All Directors on Monday, July 20, 2020, indicating significant increases driven by the markets for both casualty and property lines. Carrier negotiations have been ongoing and policies will be bound by October 1.

**Reserve Bank Account:** On September 8, 202, via resolution 01-20-60, the Board requested the opening of a new bank account for the purpose of depositing and disbursing monies from the Reserve Fund. The relationship team at Bank of America is currently working on the implementation of the new account including adding check signors and mirroring the functionality of the existing bank account. Use of the Reserve Fund bank account is anticipated to begin in October 2020.

**Investment Update:** Based on current market conditions, the portfolio target allocations were adjusted modestly by SageView in early April to shift from corporate bonds to intermediary Treasury bonds. The United portfolio balance has grown from \$14,828,044 on 12/31/19 to \$15,409,563 as of August 31, 2020, representing a gain of \$581,519 or 3.9%.

#### STAFF REPORT

DATE: September 29, 2020 FOR: Finance Committee

**SUBJECT: Damage Restoration Reclassification** 

## **RECOMMENDATION**

Staff recommends the board approve a reclassification of \$510,877 from the Contingency Fund to the Reserve Fund for damage restoration construction expenses incurred from January 1, 2020 to August 31, 2020. Furthermore, damage restoration construction expenses will be coded to the Reserve Fund for the remainder of the year.

## **BACKGROUND**

The Maintenance and Construction Department provides restoration services from damages resulting from plumbing leaks, plumbing stoppages, rain leaks, moisture from tub/shower enclosures, cracked tile/missing grout, humidity, irrigation, loose sink/countertop connections, washing machines (non-alteration), service work related, foundations, window condensation, and mold. Expenses can be broken down into two general categories: 1) general cleanup, including dry down, environmental testing, abatement & misc. repairs; and 2) reconstruction. To date, these expenses have been budgeted and charged to the Contingency Fund (previously the General Operating Fund).

The Contingency Fund is used for the repair or replacement of mutual assets damaged by uninsured or unexpected disasters in addition to providing funding for unanticipated significant expenditures not otherwise identified in the business plan.

The Reserve Fund was established at the original construction of the Mutuals. The purpose of the Reserve Fund is to provide for repair, restoration, replacement, or maintenance of structural elements and mechanical equipment within the Mutual. To date, the Reserve Fund has not been used for invoices classified as damage restoration.

During the 2021 Business Planning meetings, the Board asked that costs related to the reconstruction or replacement of mutual owned components be moved from the Contingency Fund to the Reserve Fund to better fit the purpose of the funds. Beginning in 2021, the Business Plan includes funding for damage restoration cleanup from the Operating Fund and damage restoration construction from the Reserve Fund. The reserve funding is included in the Building Structures line of the Programs Report.

Since damage restoration cleanup expense and reconstruction are planned to be funded from the Operating and Reserve Funds respectively, only minimal expenditures are projected from the Contingency Fund. With almost no expenses planned, the Board elected to have an assessment contribution of \$0.00 per manor, per month.

United Laguna Woods Mutual Damage Restoration Reclassification September 29, 2020 Page 2

Whether damage restoration costs are cleanup or reconstruction, costs above the deductible amount are submitted to insurance for reimbursement. The deductible amount for the policy ending 10/1/2020 is \$10,000 per event; the 10/1/2021 renewal deductible is projected to be \$25,000. The increased deductible is expected to increase the out-of-pocket expense to the Mutual.

## **DISCUSSION**

In 2020, expenses related to damage restoration were coded to the Contingency Fund. Staff reviewed each damage restoration invoice from January 1, 2020 to August 31, 2020 that was coded to the Contingency Fund and identified \$510,877 of expense that related to reconstruction (see Attachment 1). Based on the purpose of the Reserve Fund, Staff recommends a reclassification of construction related expenses from the Contingency Fund to the Reserve Fund.

## FINANCIAL ANALYSIS

The 2021 Business Plan includes projected fund balances that assume the reclassification of 2020 reconstruction expense from the Contingency Fund to the Reserve Fund. Furthermore, damage restoration reconstruction expenses will be coded to the Reserve Fund for the remainder of the year.

The financial impact of the proposed reclassification is an increased balance in the Contingency Fund, as projected in the 2021 Business Plan below:

#### **STAFF REPORT**

DATE: September 29, 2020 FOR: Finance Committee

**SUBJECT: Labor Expenses Charged to Reserve** 

## **RECOMMENDATION**

Receive and file.

### **BACKGROUND**

Employee compensation often represents the largest expense category for the Mutual and is comprised of both Operating and Reserve Fund expenses. Payroll expenses are initially recorded under the Operating Fund and are subsequently allocated to the Reserve Fund during month-end closing procedures based on submitted labor hours (cost collection).

Labor hours originate from employee timecards prepared either electronically using Dayforce Time & Attendance or the ADS System for Landscape union employees, or manually using hand-written labor sheets for union employees in Maintenance, Janitorial, and Paving. With few exceptions, both electronic and manual timecards are entered by the employee completing the work and include both hours and the job code specific to the assignment they are working on. Once the timecards are completed they are approved by the employee's supervisor and submitted to Payroll for processing. In a few instances such as Landscape and Paint, foremen enter the time and job codes for their teams. In these cases the employee and foreman both sign the timecard at the end of the week evidencing their review. Payroll begins by entering the manual labor sheets into ICE / Stellar and confirming the ADS System contains data for the relevant period. After initial review the data is imported into Dayforce for further processing and recording to the General Ledger within AX.

During month-end close, the Financial Services team downloads the ADS System and the ICE / Stellar hours worked. An allocation summary report containing hours, job codes and work centers is developed (See ATT1). The summary lists hours as a percentage of the total for each job code and work center. Once the payroll and preliminary accounting entries are recorded, the summary percentages are applied to all respective compensation and related expense accounts (for example union wages and workers compensation) with the objective of allocating expenses to the correct funding source, Operating or Reserve.

### FINANCIAL ANALYSIS

The practice of allocating compensation and related expenses using hours worked is consistently applied throughout the year. Furthermore, the allocation approach has been tested and validated annually by both staff and external auditors. See ATT2 for further details.

## Laguna Woods Village | Financial Services Procedures

## Number 300.710: Hourly Employee Timecard Processing

#### 1. Purpose

The procedures set for Village Management Services (VMS) use of electronic timecards and manual labor sheets.

## 2. Scope

VMS Hourly (non-exempt) employee timecards

#### 3. Procedures

Hourly employees, excluding divisional exceptions noted below, complete an electronic timecard on the Dayforce Time & Attendance system. Employees log into the system through their computer (after password verification) or a timeclock. Employees electronically sign their timecards at the end of the bi-weekly payroll period. The employee's supervisor or manager reviews the timesheet including hours worked, overtime, sick and vacation. The supervisor or manager may edit the timesheet if necessary after discussing the change with the employee and adding a note within Dayforce. After the review is complete the supervisor or manager approves the timesheet electronically.

On Tuesdays of payroll week, the Payroll Coordinator sends an email to the supervisor and manager email group (Group - Executives, Managers, Supervisors) reminding them to review and authorize timesheets if they have not done so already. Approvers have until 10:00 AM PST to make edits and approve time. After the deadline the Payroll admin will lock the timesheet system so that no further changes can be made. The Payroll team runs Dayforce analysis reports looking for errors and incomplete / missing punches due to possible oversight by timesheet approvers. Prior to making a manual change the Payroll team confirms the change with the timesheet approver. Payroll cannot be committed until all errors are corrected and saved. Once Payroll has resolved outstanding issues the payroll data file is committed to the third party service provide for further processing and payroll distribution. This process includes approximately 460 employees.

#### Divisional exceptions

Labor hours for Landscape union non-exempt employees are entered by the work center foreman on daily electronic Labor Sheets via the ADS System. Each day the employee reports to work the foreman punches them into the ADS and enters the appropriate job code for the work they are being assigned. On the Monday of a payroll week the timecards are printed for employees to review and sign. After all reviews have been completed the employee's foreman systematically approves the time which posts the details into the Information & Community Explorer (ICE) application. After the Payroll team reviews the records they import the data into Dayforce. This process includes about 120 employees.

## **Laguna Woods Village | Financial Services Procedures**

Maintenance, Janitorial and Paving union non-exempt employees record their time on daily paper Labor Sheets, which are approved by the supervisor or foreman. Start times, meal breaks and end times are hand written on Labor Sheets and hours worked are allocated to the specific event codes. This process includes approximately 120 employees. The Labor Sheets are signed by the supervisor or foreman as evidence of their review. The Labor Sheets are then are scanned by the foreman or lead employee and saved daily to OnBase (electronic document retention tool). The purpose for the employee filling out a daily labor sheet is to support the job cost collection system. The day after the Labor Sheets are saved, Payroll retrieves the scanned files and processes the data in ICE. Once per week, generally Tuesdays, Payroll downloads the information processed in ICE from the previous week and imports it into Dayforce.

Labor hours for Paint union non-exempt employees are entered on a pre-printed labor sheet including the names of the entire paint crew. The foreman completes the form by allocating hours worked with the corresponding job code. The manual labor sheets are reviewed and signed by both the employee and foreman before being sent Payroll for processing.

Manual entries (add / change / delete) to an employee's timecard are limited to the supervisor, manager or Payroll team and can be performed in both the electronic and manual labor sheet time keeping systems. Human Resources policies recommend employees submit in writing any adjustment needed on their timecard. Furthermore, the Human Resource policies require that all manual entries be accompanied by an embedded comment from the supervisor or manager justifying the reason for the change. Edits performed by Payroll also require supporting evidence for the change documented in Dayforce.

#### 4. Review Procedures

Daily exception reports are generated and reviewed by Payroll. The exception reports note information such as employee number, name, and a reason for the exception (i.e., any overtime worked > normal 8 hour work day, any special pay rate for that day, if the employee did not turn in a labor sheet). Any exceptions are identified and resolved in a timely manner. A weekly report of hours is printed from the data and reviewed for reasonableness by Payroll. Total hours worked per employee is reviewed, including hours for overtime, sick, vacation, etc.
