FOR: Landscape Committee

SUBJECT: Tree Removal Request: 471-E Calle Cadiz - California Sycamore

RECOMMENDATION

Approve the request for the removal of one California Sycamore tree located at 471-E Calle Cadiz.

BACKGROUND

The requestor became a member in April 2012, and is requesting the removal of one California Sycamore tree, *Platanus Racemosa,* located in the shrub bed area at the front of the unit.

The reasons cited for the removal request are tree limb drop and rodent activity. There was hole located at the root crown for the alleged rat intrusion. There are five additional signatures on the Mutual Request Form in favor of the removal (Attachment 1).

The height of the tree is approximately 45 feet, with a trunk diameter of approximately 21 inches. The tree is growing approximately five feet from the manor (Attachment 2).

DISCUSSION

At the time of the inspection, the tree was found to be in an elevated shrub bed with sufficient space for a tree of this size and its root structure. The tree's trunk was found to be hollow; this means the tree is structurally unsound and should be removed. There were no signs of pests or prior pest activity. There was no deadwood in the canopy yet internal decay was present.

This tree meets the parameters set forth in § 3.3.3, Infrastructure Conflicts, of the United Mutual Urban Forest Management Plan. It is the recommendation of the staff the tree removal be approved.

FINANCIAL ANALYSIS

The recurring cost to trim the trees is \$185 each. The estimated cost to remove the tree is \$1659. The estimated value of the tree is \$6,080 based on the tree inventory data.

FOR: Landscape Committee

SUBJECT: Tree Removal Request: 312-A Avenida Castilla – Canary Island Pine

RECOMMENDATION

Approve the request for the removal of one Canary Island Pine tree located at 312-A Avenida Castilla.

BACKGROUND

The requestor became a member in September 2019, and is requesting the removal of one Canary Island Pine tree, *Pinus Canariensis*, located in the shrub bed at the rear of the unit.

The reason cited for the removal request is structural damage. A root bulge adjacent to the structure indicates root impaction against the foundation. There are six additional signatures on the Mutual Request Form in favor of the removal (Attachment 1).

The height of the tree is approximately 45 feet, with a trunk diameter of approximately 21 inches. The tree is growing approximately five feet from the manor (Attachment 2).

DISCUSSION

At the time of the inspection, the tree was found to be in a poor location in an elevated shrub bed with insufficient space for a tree of this size and its root structure. The database shows a long history of sewer blockage dating back to 2020. The tree's trunk was flared in its attempt to balance itself, the tree looked to have been topped in a past trim cycle. This practice was adopted to combat a previous community-wide beetle infestation. There were no signs of active pests. There was no deadwood in the canopy and no decay present.

This tree meets the parameters set forth in §3.3.3, Infrastructure Conflicts, of the United Mutual Urban Forest Management Plan. It is the recommendation of staff the tree removal be approved.

FINANCIAL ANALYSIS

The recurring cost to trim the trees is \$395 each. The estimated cost to remove the tree is \$1,659. The estimated value of the tree is \$9,110 based on the tree inventory data.

FOR: Landscape Committee

SUBJECT: Bench Request: 519-A Calle Aragon

RECOMMENDATION

Approve the request for one bench at CDS 40.

BACKGROUND

On July 19, 2024, the resident submitted a Landscape Request Form requested two benches be placed adjacent to a recent turf reduction project (Attachment 1). According to the request, the benches would provide a resting area for residents with health issues who cannot walk far and a place for residents to gather for conversation.

On March 12, 2024, the United Board of Directors approved Resolution 01-24-27, Bench Policy (Attachment 2). There are 11 signatures in favor of the bench placement.

DISCUSSION

The request is for two benches to be placed. This area is small and just underwent turf reduction. Due to the limited funds available, staff recommends approving only one bench. Staff recommends the bench be placed across from the turf reduction area under the existing mature tree, facing the newly landscape area.

The original request for the turf reduction included a request for benches, the bench policy was not in effect when the turf reduction was approved by the Committee, so the bench portion of the request was put on hold.

FINANCIAL ANALYSIS

The cost to purchase the bench and install is \$1,748.40. The placement and install would be accomplished with Landscape Services staff (Attachment 4). There are sufficient funds remaining in the supplemental funds approved in Resolution 01-24-35 to fund this request.

RESOLUTION 01-24-27

Bench Policy

WHEREAS, Resolution 01-12-34 adopted February 14, 2012 states the type of bench, color, and model of bench; and

WHEREAS, the landscape committee recognizes it does not address location, placement, adjacent surfaces or other safety considerations; and

NOW THEREFORE BE IT RESOLVED, March 12, 2024, that the Board of Directors of this Corporation introduces the revised Bench Policy which gives guidance and direction on the type of bench, color, and model of bench, request procedure, placement, and safety considerations; and

RESOLVED FURTHER, Heritage Bench style made of recycled plastic slats in cedar color and a heavy-duty cast aluminum frame, powder coated in black for all benches. Benches should have the following requirements:

- Benches should have a seat height of 17" to 19" above ground or floor space.
- Clear "firm and stable" ground space adjacent to benches should be included and should be a minimum of 30" x 48".
- Seat backs should be provided that extend the full length of the seat.
- Benches should include armrests; and

RESOLVED FURTHER, for benches located on paved walkways, the bench should be placed behind the back of the sidewalk. In locations where this is not possible, there should be at least four feet of clear space in front of the bench to allow for pedestrian traffic while someone is seated on the bench and thirty inches on at least one side to permit a wheelchair to sit aside the bench; and

RESOLVED FURTHER, in unpaved areas, such as passive parks and landscaped areas, benches shall be placed where there is clear access to the bench on unobstructed, weather resistant, firm, and stable ground from a paved walkway. If there is more than one bench in a given area, at least one shall be accessible by wheelchairs; and

RESOLVED FURTHER, seating areas should be shaded, if possible and benches should be anchored to prevent unauthorized movement or theft; and

RESOLVED FURTHER, no benches can be donated as a memorial and no plaque maybe placed on them; and

RESOLVED FURTHER, requests for benches, whether to be funded by the Mutual or by donation, shall be accomplished through the Landscape Request Form process. As with other requests, staff would meet with the requestor, ascertain the need and possible locations and prepare a recommendation for consideration by the Landscape Committee; and

RESOLVED FURTHER, that Resolution 01-12-34, adopted February 14, 2012 is hereby superseded and cancelled; and

RESOLVED FURTHER, that the officers and agents of this Corporation are hereby authorized on behalf of the Corporation to carry out the purpose of this resolution.

STAFF REPORT

DATE: August 26, 2024

FOR: Landscape Committee

SUBJECT: Bench Request: 60-Q Calle Aragon

RECOMMENDATION

Deny the request for a bench at CDS 16.

BACKGROUND

On August 5, 2024, the resident requested a bench to be placed (Attachment 1). According to the request, it provides a gathering area for residents to visit. These residents must stand just to visit and have nowhere to sit. Many residents in the area use walkers and cannot stand for long periods of time.

On March 12, 2024 the United Board of Directors approved an updated bench policy (Attachment 2). There are six signatures in favor of the bench placement. On April 22, 2024, the United Landscape Committee recommended to the Board of Directors approval of a bench in request from 60-Q in CDS 16 for residents to use while waiting for the bus. On May 14, 2024, the Board of Directors approved the installation of the bench; the bench was installed in August of 2024.

DISCUSSION

Staff recommends denying the bench request at this time. The areas in CDS 16 are large turf areas with trees. These will be among the areas under consideration for turf reduction as part of AB1572. As community gathering area definitions, descriptions, and appurtenances are still in flux, staff recommends waiting until the planning process is further along before moving forward with more work of this nature.

FINANCIAL ANALYSIS

The cost to purchase the benches and install is \$1,748.40. The placement and install would be accomplished with Landscape Services staff (Attachment 3).

GUIDELINES:

- <u>Structural/Sewer Damage</u>: Damage to buildings, sidewalks, sewer pipes, or other facilities may justify removal if corrective measures are not practical.
- <u>Overgrown/Crowded</u>: Trees or plants that have outgrown the available space may justify removal.
- <u>Damaged/Declining Health</u>: Trees or plants that are declining in health will be evaluated for corrective action before removal/replacement is considered.
- <u>Litter and Debris</u>: Because all trees shed litter seasonally, this is not an adequate reason to justify removal.
- <u>Personal Preference</u>: Because one does not like the appearance or other characteristics of the tree or plant does not justify its removal.
- <u>View Obstruction</u>: Trees will not be off-schedule trimmed or removed due to view obstruction.
