

REGULAR MEETING OF THE FINANCE COMMITTEE

Tuesday, August 25, 2020 – 1:30 p.m. Laguna Woods Village Virtual Meeting

AGENDA

- 1. Call to Order
- 2. Acknowledgment of Media
- 3. Approval of the Agenda
- 4. Approval of Meeting Report for June 30, 2020
- 5. Chair Remarks
- 6. Member Comments (Items Not on the Agenda)
 - a) Send email to meeting@vmsinc.org any time before the meeting is scheduled to begin or during the meeting. Please use the name United Finance Committee in the subject line of the email. Name and unit number must be included.
 - b) Call (949) 268-2020 no more than thirty minutes before the meeting begins and throughout the remainder of the meeting. Provide your name and unit number.
- 7. Department Head Update

Reports

8. Preliminary Financial Statements dated July 31, 2020

Items for Discussion and Consideration

- 9. Civil Code Section 5500 & 5510 Verification and Compliance
- 10. Reserve Expenditures Categories
- 11. Endorsements from Standing Committees

Future Agenda Items

Financial Presentations (CFO)

Concluding Business:

- 12. Committee Member Comments
- 13. Date of Next Meeting Tuesday, September 29, 2020 at 1:30 p.m.
- 14. Recess to Closed Session

Brian Gilmore, Chair Betty Parker, Staff Officer Telephone: 949-597-4201

OPEN MEETING

FINANCE COMMITTEE MEETING REPORT OF THE REGULAR OPEN SESSION

Tuesday, June 30, 2020 – 1:30 p.m. Virtual Meeting

MEMBERS PRESENT: Brian Gilmore – Chair, Sue Margolis, Carl Randazzo, Manuel

Armendariz, Elsie Addington

OTHERS PRESENT: Juanita Skillman, Andre Torng,

Dick Rader - VMS

MEMBERS ABSENT: None

STAFF PRESENT: Betty Parker, Steve Hormuth, Christopher Swanson

Call to Order

Director Gilmore chaired the meeting and called it to order at 1:32 p.m.

Approval of Agenda

A motion was made and carried unanimously to approve the agenda as presented.

Approval of the Regular Meeting Report of May 26, 2020

A motion was made and carried unanimously to approve the committee report as presented.

Chair Remarks

None.

Member Comments (Items Not on the Agenda)

Director Skillman commented on the OC View article and recommended that Eileen Paulin and Ellyce Rothrock look at the article for possible inclusion in the Village Breeze.

Director Torng commented on the redistribution of over collected assessment in the occupancy agreement and the contingency fund needing a gate keeper to track funding levels and not to have any comingled usage of funds.

Director Armendariz commented the when the appropriate time to ask questions regarding review of the May 31, 2020 financials.

Department Head Update

Betty Parker, Chief Financial Officer, provided updates on Civil Code 5500 reporting, insurance, investments and the 2021 budget process. Also, Betty Parker requested that Director Torng restate his request for information that was made during the member comments in an email and to copy Director Gilmore. Director Armendariz commented on the difference between Civil Code Sections 5500 and 5510 (a)&(b) and the need to bring United into compliance.

The following items were requested:

- Civil Code Section 5500 & 5510 Verification and Compliance
- Distribute "Reg to Check" report to all United Board Members
- Distribute KPMG Operational Review to United Finance Committee members

Review Preliminary Financial Statements dated May 31, 2020

The committee reviewed Financial Statements for May 31, 2020. Discussion ensued and questions were addressed. The following items were requested:

- Historical analysis of the Contingency Fund balances and expenditures.

Investment Update/Investment Policy

The committee reviewed a document from Sageview regarding possible investments recommendations for adding equities into the United Laguna Woods Investment Strategy. Dan Quirk reviewed with the Committee the possible options. Discussion ensued with the committee as well as members emailing in questions from the community. Question came from the following committee members:

1. Dick Rader – Asked regarding civil code requirements for investments for HOA's and request a model of our currently portfolio vs. the 2008 Financial Crisis.

No action was taken investment recommendations from Sageview and no changes were recommended to the current investment policy.

Financial Presentation on Treasurer's Report

Given the amount of time that was spent on the Department Head Update and the Investment Presentation from Sageview, Director Gilmore requested that this presentation be placed on a future agenda for discussion.

2021 Reserve Study Update

Betty Parker provided an update on the status of the 2021 Reserve Study Update. No action was taken.

Report of United Finance Committee Regular Open Meeting June 30, 2020 Page 3 of 3

Contingency Fund Analysis

Betty Parker presented the Contingency Fund Analysis to the committee. Director Armendariz commented on the analysis and the appropriate placement of expenses in the Contingency Fund that are reflected on the report. Betty Parker provided responses and answered questions. No action was taken.

Future Agenda Items

Civil Code Section 5500 & 5510 Verification and Compliance Financial Presentation on Treasurer's Report

Member Comments

Director Gilmore commented on a possible workshop to understand processes better.

Date of Next Meeting

Tuesday, July 28, 2020 at 1:30 p.m.

Recess to Closed Session

The meeting recessed to closed session at 3:22 p.m.

MEMORANDUM

To: United Finance Committee

From: Betty Parker, CFO Date: August 25, 2020

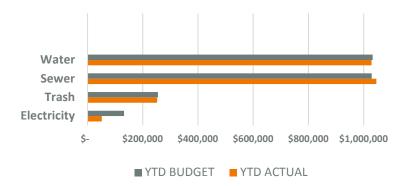

Re: Department Head Update

Financial Highlights

- SUMMARY: For the year-to-date period ending July 31, 2020, United Mutual was better than budget by \$5 million primarily due to timing of programs, especially in the areas of compensation \$1.9M, outside services \$1.6M, and materials \$965K. Various programs were put on hold in mid-March due to the COVID-19 pandemic; however by August, most were restarted.
- COMPENSATION: Actual compensation and related costs came in at \$6.6 million, with just under \$5.4 million in operations and \$1.2 million in reserves. Combined, this category is 22% favorable to budget. Staffing was reduced through employee furloughs beginning mid-March due to the Covid-19 pandemic. For United, the most significant impacts were in Maintenance and Landscape.
- UTILITIES: In total, this category was favorable to budget by \$71K. Water and trash came in on budget; electricity was favorable due to energy consumption offset by solar credits.

Discussions

Section 5500 Update: Due to Covid-19 orders, information required for Board review of monthly financials is being provided to all board members via email. Further, a programming change was made to AX in May segregating A/P and Cash reserve fund transactions and balances from operating funds on the balance sheet. The change has allowed Board members to approve reserve expenditures prior to payment beginning in June.

Insurance Update: Property valuation for the community was completed by Duff & Phelps. Farmers has declined to make a proposal on the Laguna Woods Village insurance program due to market conditions and will re-visit the option of working with our broker in the future. Beecher Carlson reached out to incumbents and presented a renewal strategy update to All Boards All Directors on Monday, July 20, 2020, indicating significant increases driven by the markets for both casualty and property lines. Carrier proposals are due September 4.

Investment Update: Based on current market conditions, the portfolio target allocations were adjusted modestly by SageView in early April to shift from corporate bonds to intermediary Treasury bonds. The United portfolio balance has grown from \$14,828,044 on 12/31/19 to \$15,433,843 as of July 31, 2020, representing a gain of \$605,799 or 4.1%. SageView provided a semi-annual portfolio review in August.

2021 Budget: On August 19, 2020, United Board reviewed Version 2 of the proposed 2021 Business Plan. Changes, continuing discussions on August 21. The proposed budget will be adopted at the board meeting on September 8, 2020.

Calendar

The following scheduled meetings will be held remotely during COVID-19 stay home orders:

- Aug 25, 2020 @ 1:30 p.m. United Finance Committee Meeting (July Financials)
- Aug 27, 2020 @ 2:00 p.m. United Board Agenda Prep Meeting
- Sep 8, 2020 @ 9:30 a.m. United Board Meeting
- Sep 29, 2020 @ 1:30 p.m. United Finance Committee Meeting (August Financials)

FINANCIAL REVIEW CONFIRMATION CHECKLIST FOR THE BOARD OF DIRECTORS OF THE UNITED LAGUNA WOODS MUTUAL A CALIFORNIA NON-PROFIT MUTUAL BENEFIT CORPORATION

Pursuant to California *Civil Code* Section 5500, unless the governing documents impose more stringent requirements, the Board of Directors of United Laguna Woods Mutual ("United") is required to review various financial documents and statements on at least a <u>monthly</u> basis. Furthermore, this review requirement may be satisfied by a subcommittee of the Board, which consists of United's treasurer and at least one (1) other Board member. (*Civil Code* § 5501.)

This Financial Review Confirmation Checklist ("Checklist") is designed for use in keeping track of the financial review obligations required by the *Civil Code*. It also serves to document the completion/satisfaction of these financial review obligations by the Board of Directors and/or the designated subcommittee of the Board.

Accordingly, the undersigned Board members, or designated subcommittee members, hereby affirm that they reviewed the following documents for the period ending July 31, 2020:

| 1. accoun | | reconciliation | of | United's | operating | and | reserve |
|--------------|---------------------------|-------------------------------------|------|------------|--------------|---------|----------|

UNITED LAGUNA WOODS MUTUAL

Number 300.01: Board Review of Financial Statements & Transfers

1. Purpose

The procedure for Village Management Services (VMS) Board Review of Financial Statements and Transfers has been established to comply with the Davis-Stirling Act requirements as outlined in Sections 5500-5502.

2. Scope

California Civil Code > Part 5. Common Interest Developments (Davis-Stirling Common Interest Development Act) > Chapter 7. Finances > Article 1. Accounting > Civil Code

§5500

Unless the governing documents impose more stringent standards, the board shall do all of the following:

- (a) Review, on a monthly basis, a current reconciliation of the association's operating accounts.
- (b) Review, on a monthly basis, a current reconciliation of the association's reserve accounts.
- (c) Review, on a monthly basis, the current year's actual operating revenues and expenses compared to the current year's budget.
- (d) Review, on a monthly basis, the latest account statements prepared by the financial institutions where the association has its operating and reserve accounts.
- (e) Review, on a monthly basis, an income and expense statement for the association's operating and reserve accounts.
- (f) Review, on a monthly basis, the check register, monthly general ledger, and delinquent assessment receivable reports.

[Amended by Stats. 2018, Ch. 396, Sec. 3. (AB 2912) Effective January 1, 2019.]

§5501

The review requirements of Section 5500 may be met when every individual member of the board, or a subcommittee of the board consisting of the treasurer and at least one other board member, reviews the documents and statements described in Section 5500 independent of a board meeting, so long as the review is ratified at the board meeting subsequent to the review and that ratification is reflected in the minutes of that meeting. [Added by Stats. 2018, Ch. 396, Sec. 4. (AB 2912) Effective January 1, 2019.]

§5502

Notwithstanding any other law, transfers of greater than ten thousand dollars (\$10,000) or 5 percent of an association's total combine reserve and operating account deposits, whichever is lower, shall not be authorized from the association's reserve or operating accounts without prior written board approval. This section shall apply in addition to any other applicable requirements of this part.

[Added by Stats. 2018, Ch. 396, Sec. 5. (AB 2912) Effective January 1, 2019.]

3. Compliance Procedures

VMS provides all duly elected board members with access to financial documents for review in accordance with Civil Code requirements according to the following procedures.

a. Financial Distribution and Presentation

On a monthly basis, a financial package is distributed to all board members and finance committee advisors which includes, but is not limited to, core financials (balance sheet, change in fund balances, statement of income and expense, operating statement), reserve expenditures, and ad hoc financial management reports as requested. If a regular Finance Committee meeting is scheduled, a variance report is presented by the CFO and/or Controller; otherwise, a printed copy of the variance report is included in the distributed financial package.

Included under separate cover are the monthly assessment and chargeable services delinquency reports for closed session review.

A summary of this financial information is incorporated into each monthly Board meeting, known as the Treasurer's Report, which is distributed in the Board agenda package and presented verbally by the Treasurer.

b. Access to Bank Statements

The Treasurer for each Board is setup with online access to corporate bank statements using a unique and secure login obtained directly from the financial institution.

c. Access to General Ledger, Check Register, and Bank Reconciliations

Due to the volume of transactions in Laguna Woods Village, some of the required financial reporting is not practical in a printed format. To comply with all requirements within §5500, the following reports have been made available **electronically** in the Directors Room on the second floor of the Community Center: general ledger, check register, bank reconciliation. These documents are available for review by current board members are and are not to be printed, distributed, or disseminated without permission from the respective Board.

On the computer located in the Directors Room, each Board has a shortcut to an FTP folder on the desktop: GRF, THIRD, and UNITED. To access the financial documents for his or her respective Board, a director will double-click on the named folder. When prompted for the username and password, user will enter the information supplied by the Corporate Secretary.

DO NOT check the Save Password or Log On Anonymously options. This will lockout all other FTP users and disrupt permissions.

The Usernames and Passwords are to be kept <u>confidential</u> by the Corporate Secretary and not posted in any public or restricted access place if persons from different organizations would have the ability to see the information. Passwords are casesensitive, usernames are not case sensitive.

| Board | Username | Password | |
|--------|----------|----------|--|
| GRF | ***** | ***** | |
| THIRD | ***** | ***** | |
| UNITED | ***** | ***** | |

d. Ratification of Board Review

To meet requirements for review as outlined in §5501, each Board includes the following statement, developed by legal counsel, on the monthly consent calendar to ratify individual Board member review of the financials:

"Consistent with its statutory obligations the Board members individually reviewed and approved [Corporation Name] financials for the month of [Reporting Period] and by this vote ratify that such review be confirmed in this month's Board Member Open Session Meeting minutes."

Or

"Consistent with statutory obligations under Civil Code §5501, a subcommittee of the Board consisting of the Treasurer and at least one other board member reviewed [Corporation Name] financials for the month of [Reporting Period] and such review is hereby ratified."

e. Financial Transfers

Pursuant to written Board approval requirements outlined in §5502, each Corporation has adopted policy resolutions to identify the authorities given to VMS Inc. as managing agent to conduct business activities including, but not limited to, financial transfers.

GRF Resolution 90-19-03 United Resolution 01-19-13 Third Resolution 03-19-06

4. Review Procedures

The information below is intended to help guide board members through their review of the financial documents by explaining the purpose of each financial document, providing a summary of the information contained therein, and identifying points to consider during review.

1) Reconciliation of banking account(s):

Bank reconciliation

The Bank Reconciliation is used to compare company records to that of the bank and to document differences. Common causes of reconciliation differences are outstanding checks and deposits in transit. Payments issued by the company but not yet deposited by the payee are reported as outstanding checks on the reconciliation, while deposits received and recorded by the company but not yet recorded by the bank are reported as deposits in transit. A review of the bank reconciliation may include a tie out of the balance reported to the bank statement prepared by the financial institution and an examination of the noted differences. Unreconciled and unrecorded transactions should be immaterial in nature and resolved timely, not reappearing on future reconciliations. Transactions reported as outstanding checks or deposits in transit should not age beyond a reasonable period without an explanation from Staff. The company's cash account balance is reported on the Balance Sheet under the header 'Cash and cash equivalents'.

2) Account statements prepared by financial institutions:

Bank statements

Monthly bank statements are downloaded directly from the Bank of America website. The bank balance as of the end of the reported period should be tied to the company's bank reconciliation. A review of this document may include a search for unreasonable and/or unexpected payments, or anticipated deposits not recorded.

3) Operating revenues and expenses compared to budget:

Statement of Revenue & Expenses

The Statement of revenues and expenses is a summarized view of the company's financial performance for the current month and year to date compared to budget and prior year. This summary statement aggregates funds and reports activity at the consolidated level. The ending balance reported as 'Excess of revenues over expenses' will agree to the 'Change in fund balance - current year' found on the Balance Sheet. A review of this document may include an examination of material variances from budget and any activity that appears different from the reviewer's expectation and knowledge of the community.

4) Income and expense statements:

Operating Statement – Operating
Operating Statement – Reserves Only

The Operating Statements report a detailed view of the company's financial performance for the year to date compared to budget, reported in summary by general ledger account. The ending balance reported as 'Excess of revenues over expenses' will agree to the 'Change in fund balance - current year' found on the Balance Sheet. A review of this document may include an examination of material variances from budget and any activity that appears different from the reviewer's expectation and knowledge of the community.

5) Check register, monthly general ledger, and delinquent assessment receivable report:

Check register

The Check Register is a sequential listing of checks issued by the Corporation. The register lists the date the check was generated, the check number, the status (paid versus canceled or voided), vendor number, vendor name, and the amount of the payment. A review of this document shall include a search for unreasonable and/or unexpected payments to vendors (vendors requiring payment may include contractors, service providers, residents, or employees). The focus of the review may include transactions of atypical or unexpected frequency, unusual amounts, duplicate amounts, or payments to vendors who no longer have a relationship with company.

Monthly general ledger

The General Ledger is the main accounting record of the company. It is a transactional listing of all financial activity recorded that, in aggregate, forms the basis of the company's financial statements. The monthly ledger lists the main account number and name, date of the transaction, the journal and voucher number, a description of the transaction, and the amount. The general ledger accounts are categorized into balance sheet or income statement accounts and further broken down into assets, liabilities, equity for the balance sheet and revenues and expenses for the income statement. Assets and expenses are increased with a debit to the general ledger while liabilities, equity and revenues are increased with a credit. A review of this document may include a search for unreasonable and/or unexpected account activity, such as transactions not in compliance with applicable company policies, accounting regulations, or Civil Code.

Due to the large volume of transactions recorded each month, any focused interest may be communicated to Staff who will provide supporting detail.

Delinquent receivable reports

The Delinquent Receivable reports list member names and amounts due the Corporation that are outstanding beyond an agreed upon term and amount. As of the date of this policy, the amount and term deemed delinquent and reportable is \$800 per manor for assessments, with the manor having been issued a Demand Letter, and \$200 per manor for chargeable services outstanding for greater than 60 days. The report lists the name of the coupon holder for the past due assessment(s) or the name of the individual who authorized the chargeable service(s), the manor number, the total amount due (includes both current and delinquent amounts per manor), and a brief reporting status.

A review of these reports may include a comparison to prior reports to understand changes in individual balances and totals. An examination should include both Action and Non-Action categories. Delinquent account balances where collection efforts have not progressed should be questioned and updates should be requested of Staff. A board member's insight gained from other committees should be compared to the delinquency reports in looking for possible unreported balances. Balances that do not match a board member's expectation should result in an information request communicated to Staff.

DISBURSEMENTS FOR RESERVE EXPENDITURES

PURPOSE

This procedural manual is intended to provide process information for the operational activities of Purchasing and Accounts Payable specific to payments made from reserve accounts belonging to Golden Rain Foundation of Laguna Woods, Third Laguna Hills Mutual, and United Laguna Woods Mutual (Corporation). This manual covers sufficient procedural detail to enable VMS and directors of the Corporation to:

- 1: Be fully aware of, and comply with, the governing authority
- 2: Effectively participate in the VMS program to disburse funds for reserve expenditures

In the event there is any contradiction between these guidelines and the Disbursement for Reserve Expenditures Policy, board-approve polices shall prevail.

GOVERNING AUTHORITY

California Civil Code § 5510 Expenditure of Reserve Accounts

- (a) The signatures of at least two persons, who shall be directors, or one officer who is not a director and one who is a director, shall be required for the withdrawal of moneys from the association's reserve accounts.
- (b) The board shall not expend funds designated as reserve funds for any purpose other than the repair, restoration, replacement, or maintenance of, or litigation involving the repair, restoration, replacement, or maintenance of, major components that the association is obligated to repair, restore, replace, or maintain and for which the reserve fund was established.

Purchasing Procedures Manual

Delegation of Authority Matrix

SCOPE

In compliance with Civil Code § 5510, Financial Services segregates reserve expenditure payments from non-reserve and / or operating payments. Checks and supporting invoices at or above \$5,000 are routed to authorized check signers (see Delegation of Authority Matrix) for two live signatures then returned to Accounts Payable. Electronic copies of payments from reserve funds, regardless of amount, are saved along with the Disbursement for Reserve Expenditures Summary Report.

For each corporation, Financial Services contacts two board members via email requesting their review and approval of the reserve expenditure payments. Directors provide evidence of their review by responding via email with their explicit approval (eg. Approved for payment). Staff responds to questions and provides additional supporting documents upon request until all payments are authorized.

Board members responsible for the review of reserve payments shall ensure compliance with Civil Code § 5510 Expenditure of Reserve Accounts (b). The board shall not expend funds designated as reserve funds for any purpose other than the repair, restoration, replacement, or maintenance of, or litigation involving the repair, restoration, replacement, or maintenance of, major components that the association is obligated to repair, restore, replace, or maintain and for which the reserve fund was established.

Financial Services shall ensure explicit approval is obtained from two board members then direct Accounts Payable to release the payment to the vendor.

PROCEDURE

Purchasing

The Purchasing Division (Purchasing) is responsible for hiring contractors for projects and services, and the acquisition of goods and capital items. The Dynamics AX software is used for the electronic submission of purchase requisitions. Users are able to create purchase requisitions: Standard, Capital, Blanket, or Contract. All requisitions are created, approved, processed and reviewed electronically in Dynamics AX and can be tracked throughout the life of the requisition.

The requestor logs on to the system, selects the type of requisition and fills in the purchase requisition with the appropriate information (i.e. Product name, Item Number if applicable, Vendor Account, Quantity, Unit, Procurement Category (i.e. General Ledger Account), Fund Source (i.e. Operating or Reserve), stock number, quantity, Units Of Measure, description of the item, procurement code, requisition notes & specifications). Once a requisition has been submitted, the requisition is assigned to a buyer.

Buyers examine each purchase requisition and split Standard, material only Capital and Blanket purchases between themselves. The other requisitions are given to the Purchasing & Supply Manager and the Contract Administrators. The Buyers will attempt to obtain at least 3 bids from vendors on items consistent with amounts designated within the Delegation of Authority Matrix, or on items which are not familiar to the Buyer and the lowest qualified bidder is selected. The Buyer inputs price and vendor code. The purchase requisition system interfaces with the accounts payable module within Dynamics AX.

Once submitted, by the buyer, the requisition is systematically routed for approvals. Supervisors, Managers or Directors cannot both request and approve a requisition. For capital requisitions, two additional approvals are required (Budget Verification & Financial Services Authorization). As such, Dynamics AX is configured with the proper segregation of duties between those who can create purchase orders, receive goods, clear match variances, and enter invoices.

If an over-shipment is received, the Warehouse will notify the requesting work center. If the work center would like to keep the over shipment they will submit an e-mail requesting a PO increase. The Items Are Received (Inventory and Non-Inventory) by the Warehouse.

When the Warehouse receives an item, a Stock Records Clerks compares the quantity on the packing list to the container received and signs the packing list so the driver is not delayed. The stock record clerk opens the boxes and physically counts each item. The purchase order number is then written on each box. The clerks then open the boxes and compare the quantity received to the quantity ordered, per the P.O. and the shipping document. If the quantities match, the stock records clerks will mark the item as received and enter the quantity received in the system Dynamics AX. If the quantity received is higher than the P.O. quantity, the Warehouse has two options, to keep or return the additional items. When kept, Purchasing will be notified to add additional line to the P.O., and then the Warehouse will receive the additional items as complete. When returned, a Materials Return Form will be created and submitted via e-mail to Purchasing (Material Returns also occur with damaged or incorrect goods). Purchasing will then call the vendor to discuss the returning of the items. Once shipment and disposition are determined, the Warehouse will be notified. When Purchasing receives the credit memo it will be forwarded to Accounts Payable with the Materials Return Form for processing.

When items are received by the work centers, the individual receiving the items will verify the quantity received to the quantity specified on the shipping documentation. They will then verify amounts received to amounts ordered and sign off on the shipping documentation. Once this is complete the shipping document will be sent to the Warehouse so that they can close the P.O on Dynamics AX.

See additional Purchasing process activities embedded below in the Accounts Payable procedures.

Accounts Payable

Vendor invoices are initially received either via the mailroom or electronically through email. Mailroom receipts are delivered directly to Accounts Payable (AP) for opening. Electronic invoices are forwarded to <u>AP@VMSInc.org</u>. Two clerks process AP invoices received via the mail and email, one clerk is assigned vendors from A - K, the other L - Z vendors. Invoices are interoffice mailed or emailed to the respective purchase requestor or supervisor / manager for approval.

Upon receipt of the invoice, the purchase requestor confirms that the work was completed that that complies with the contract both in content and in pricing. The purchase requestor signs, initials, or emails the invoice noting their approval. The purchase requestor then routes the invoice or compiles an invoice package consistent with the Delegation of Authority Matrix.

For invoices greater than or equal to the amounts defined in the Delegation of Authority Matrix, the purchase requestor prepares an invoice package including (1) a cover sheet noting the invoice and contract numbers along with any and all other pertinent information, (2) the invoices with signature or initial from the purchase requestor, (3) signed contract authorizing work and (4) any and all other supporting documentation. The requestor then forwards the invoice package to their divisional supervisor, manager or department head for further processing. The divisional supervisor, manager or department head signs or initials the invoice cover sheet after confirming the first signature was provided by an authorized employee and that the work described in the package was performed. The invoice package is then routed consistent with the Delegation of Authority Matrix.

For invoices greater than or equal to the amounts defined in the Delegation of Authority Matrix, the invoice package containing both approvals is submitted to Purchasing for approval confirming that all contract criteria were met. Purchasing signs or initials the invoice cover sheet after confirming the invoice and project completion match the contract (i.e. billing terms, units of measure, timing of completion, etc.). The approved package is submitted to AP.

Invoice package questions or approval rejections are emailed directly to the purchase requestor for resolution with a copy to previous approvers.

Upon return of the invoice to AP, the signature(s) or initial(s) noting invoice approval is compared to a listing of employees authorized to approve invoices. The authorized signature listing, maintained by AP, is grouped by operating department and contains employee names, along with samples of signatures and initials. In addition to hand written signatures and initials, email approvals from authorized employees are accepted. Once AP verifies the invoice was approved by an authorized employee(s) and meets the authorization criteria noted above, the invoice is entered into the PO matching function of AX for verification of accuracy and completeness. During the data entry process the AP Clerk verifies the mathematical accuracy of the invoice. The system verifies the vendor, PO, amount of items received compared to amount of items ordered, and amount of invoice as compared to amount of PO. If there are any differences when the invoice is compared to the PO or the item has not been received then the invoice is placed on tolerance hold. For items not yet received, the tolerance hold may only be cleared by warehousing to acknowledge receipt of inventory in the meantime. For price variances, the tolerance hold must be cleared by the Purchasing Department who must approve the unit price difference for the corresponding vendor.

Upon completion of a proper 3-way match, the system will generate a voucher number (sequentially), which is then manually written on the invoice for referencing purposes. This indicates that all information per the invoice is consistent with the actual purchase order. Before a Voucher number can be generated, an invoice must be cleared of all tolerance holds and must have been received.

Purchasing is the only division that may clear tolerance holds through system access. Once a resolution is reached, the system is updated. Before each check run, the AP clerks will review the status for all outstanding tolerance holds. If a hold is cleared the clerks will generate a voucher number for the invoice.

After all invoices for a particular batch have been entered, AP personnel print an invoice journal report for each batch. All invoice journals are reviewed and signed by the Financial Services Manager before they are posted. For invoice journals, AP personnel (depending on the invoices) run a tape of the actual invoice amounts and compare (and attach) it to the report for accuracy and completeness.

Check runs occur weekly, with as-needed checks generated when requested. The AP Clerk generates a check run by specifying vendors A-K or M-Z depending on which vendor to be paid. Checks are generated by the system with the check numbers being tracked by the Financial Services Manager. Checks \$5,000 and under are printed with a system-generated electronic signature from the Chief Financial Officer. Checks over \$5,000 must have 2 live signatures and are separated from the batch.

Void checks are defaced immediately, voided in the Accounts Payable system, logged onto a void check spreadsheet, then given to the data entry clerk, to be filed.

The printed check numbers are logged chronologically in a manual log. The log book shows the corporation name with the beginning and ending check numbers including the number of voided checks. This log is then reviewed by personnel for accuracy and continuity.

Financial Services segregates reserve expenditure payments from non-reserve and / or operating payments. Details of all Reserve Fund payments are entered into a Reserves Expenditure Report by the Financial Services Manager. The Financial Services Manager emails the Reserves Expenditure Report along with all supporting documents (invoice package) to the Financial Analyst for further processing. In compliance with Civil Code 5510, the Reserves Expenditure Report is submitted to two members of the board of directors for payment authorization. Staff tracks authorization responses and once the appropriate approval is received, the Reserve Fund payments are mailed.

The voucher support is then stapled to the file copies of the checks and then filed. The checks are placed in envelopes and mailed out directly to vendors, unless authorized by the Chief Financial Officer or Controller to deliver the check to the requestor.

On a daily basis, a data file of the check(s) issuance information is transmitted to Bank of America for the Positive Pay system which polices payment activity and reduces the risk of check fraud. As checks are presented for payment, the bank's Positive Pay system compares each paid item against those that were issued per the transmitted data file. Checks that do not reconcile with the issue information are listed as exceptions on the online Positive Pay exception reports. These reports are viewed daily by the Accounting Specialist for the non-payroll bank accounts. Positive pay exceptions are either manually released for payment or rejected (default).

Check copies are scanned and manually filed along with the invoice and supportive documentation. The accounts payable general ledger control account is reconciled to the month-end accounts payable aging report. Additionally, the bank statements are reconciled to the general ledger cash accounts after the books are closed for the month.
