STAFF REPORT

DATE: February 26, 2024

FOR: Landscape Committee

SUBJECT: Request to Potted Plants in front of patio wall at 29-D Calle Aragon

RECOMMENDATION

Recommend to deny the retention of potted plants in front of patio wall located at 29-D Calle Aragon.

BACKGROUND

The unit was purchased in March 2019. The resident is requesting permission to keep potted plants in front of patio wall (Attachment 1). The landscape request form states potted plants help with the member's mental problems, claims Neurologist recommended plants.

DISCUSSION

The resident is requesting to keep potted plants in front of patio wall. The member has six signatures in favor of her keeping the items.

The Landscaping Staff inspected the area and found the potted plants interfere with regular maintenance of the turf, shrubs, and trees (Attachment 2). Potted plants can only be placed on the ground in the shrub beds in accordance with Resolution 01-22-75; "...Residents may place decorative items, garden decor, statuary, potted plants, or freestanding solar lights within one single 36 square foot area immediately adjacent to their unit..." (Attachment 3). This request far exceeds the area permitted in the resolution, therefore staff recommends denying the request for retention of potted plants in the shrub bed area at 29-D.

FINANCIAL ANALYSIS

There is no cost to the mutual.

RESOLUTION 01-22-75

Personal Items in Common Areas

WHEREAS, all land outside the unit walls is considered common area, including the planting beds immediately adjacent to the units. The Board of Directors of this Corporation is concerned about the placement of privately-owned objects in the common areas, the possible safety hazards to persons, and maintenance problems caused by such placement; and

WHEREAS, the placement of privately-owned objects including plants, potted plants, statuary, and solar lights has become prevalent and unrestrained causing concerns about clutter, safety, and an obstruction to Mutual maintenance activities; and

WHEREAS, the Compliance Division and Landscape Committee receives numerous concerns from residents regarding the proliferation of privately-owned objects;

NOW THEREFORE BE IT RESOLVED, November 8, 2022 that placement of privately- owned objects in the common areas, including planting beds, shall permit personal/non- standard landscape, within the following guidelines:

- Residents may not enlarge foundation planters.
- Residents may place decorative items, garden décor, statuary, potted plants, or freestanding solar lights within one single 36 square foot area immediately adjacent to their unit.
- Residents shall be responsible for the maintenance of this area including weeding, pruning and clean up. These items should be kept in good repair and potted plants should be well-maintained and any empty pots, gardening supplies or tools removed.
- Items placed in this area shall not impede the regular maintenance of the landscape and building, nor shall they block or interfere with Mutual irrigation systems.
- Residents understand that the area shall remain common area, subject to the use and passage of all residents.
- Upon sale of the unit, the Member or the estate will be financially responsible for the removal of all personal items and the re-landscaping of

this area.

- If the personal plantings and/or decorative items in the common area directly adjacent to the manor are not maintained in a satisfactory manner may result in disciplinary action, including monetary penalties, suspension of member privileges and/or legal action.
- Members are responsible for ensuring that the rules, regulations and policies are followed by anyone they allow into the Community.
- Residents seeking a larger area or alteration of the Mutual owned landscape shall seek and obtain permission from the Board of Directors prior to any changes through the Landscape Request Form process.

RESOLVED FURTHER, that Resolution 01-05-63, adopted June 14, 2005 is hereby superseded and cancelled; and

RESOLVED FURTHER, that the officers and agents of this corporation are hereby authorized on behalf of the corporation to carry out this resolution as written.

FOR: Landscape Committee

SUBJECT: Tree Removal Request: One Chinese Elm Tree located at 27-B Avenida

Castilla

RECOMMENDATION

Deny the request for the removal of one Chinese Elm tree located at 27-B Avenida Castilla.

BACKGROUND

The requestor became a Member in October 2019, and is requesting the removal of one Chinese Elm tree, *Ulmus*, *parvifolia*, located in the turf area at the front of the unit.

The reasons cited for the removal request is the leaf debris and a wound on the trunk from a vehicular collision. There are no additional signatures on the Landscape Request Form in favor of the removal (Attachment 1).

The tree was last pruned in July 2022. Future trimming is tentatively scheduled for fiscal year 2025. This tree species is on a three-year trimming cycle.

The height of the tree is approximately 30 feet, with a trunk diameter of approximately 21 inches. The tree is growing approximately 14 feet from the unit and 10 feet from the sidewalk (Attachment 2).

DISCUSSION

At the time of the inspection, the tree was found to be in fair health with a balanced canopy and no lean towards the manor. There were no signs of pests or prior pest activity. There were no noticeable surface roots and the trunk has a favorable flare. There was damage to the tree trunk due to the vehicular impact, but it is healing and healthy. There was a portion of the sidewalk had been raised and the off-set lip has been ground down. There was no other visible damage adjacent to the area of the grinding.

This tree does not meet the parameters set forth in §3.3.1, Parameters of Tree Removal, of the United Mutual Urban Forest Management Plan. It is the recommendation of the staff the tree removal be denied

FINANCIAL ANALYSIS

The recurring cost to trim the tree is \$185. The estimated cost to remove the tree is \$1,449. The estimated value of the tree is \$6,080 based on the tree inventory data.

FOR: Landscape Committee

SUBJECT: Tree Removal Request: One King Palm Tree located at 180-A Avenida

Majorca

RECOMMENDATION

Deny the request for the removal of a King Palm tree located behind 180-A.

BACKGROUND

The requestor became a Member in April 2021, and is requesting the removal of a King Palm tree, *Archontophoenix Alexandrae*, located in the rear of the unit.

The reasons cited for the removal request is the liability of fallen palm frond and seed pod debris and the potential for rats to scale the fronds at the manor. As for the removal, the tree is 15 feet away from Manor A, B, and C. There are two additional signatures on the Landscape Request Form in favor of the removal (Attachment 1).

The tree was last pruned in November 2021. Future trimming is tentatively scheduled for fiscal year 2025. This tree species is on a four-year trimming cycle.

The height of the trees is approximately 20 feet tall, with a trunk diameter of approximately 10 inches. The tree is growing approximately 15 feet from the Manor (Attachment 2).

DISCUSSION

At the time of the inspection, the tree was found to be in good health with a vertical canopy and no lean towards the manors. There were no signs of pests or prior pest activity. There were no noticeable surface roots and the trunk has a favorable flare.

The tree does not meet the parameters set forth in §3.3.1, Parameters for Tree Removal, of the United Mutual Urban Forest Management plan. Staff recommends denial of this request.

FINANCIAL ANALYSIS

The recurring cost to trim the trees are \$85. The estimated cost to remove a tree is \$690. The estimated value of the trees is \$1,380 based on the tree inventory data.

FOR: Landscape Committee

SUBJECT: Tree Removal Request: One Podocarpus Tree and One Bottle Tree located

at 321-H Avenida Carmel

RECOMMENDATION

Deny the request for the removal of a Podocarpus tree and a Bottle tree located to the side and front of 321-H.

BACKGROUND

The requestor became a Member in August 2019, and is requesting the removal of a Podocarpus tree, *Podocarpus Gracilior*, and a Bottle tree, Brachychton, located to the side and front of the manor.

The reasons cited for the removal request is the leaf debris of the Podocarpus across the top drain of the atrium inside the home and the potential for pet death due to the seed pods of the Bottle tree. There are six additional signatures on the Landscape Request Form in favor of the removal (Attachment 1).

The trees were last pruned in May 2023. Future trimming is tentatively scheduled for fiscal year 2026. This tree species is on a three-year trimming cycle.

The height of the Podocarpus tree is approximately 25 feet tall with a trunk diameter of approximately 13 inches, and the Bottletree is approximately 20 feet tall, with a trunk diameter of approximately 13 inches. The Podocarpus tree is growing approximately 5 feet and Bottle tree is 12 feet from the unit (Attachment 2).

DISCUSSION

At the time of the inspection, the trees were found to be in good health with a balanced canopy and no lean towards the manor. There were no signs of pests or prior pest activity. There were no noticeable surface roots and the trunks have a favorable flare.

As for the removal; the Podocarpus tree is 5 feet away from the Manor and can be clearance pruned when the trimming cycle is scheduled. As for the toxicity of the Bottle tree seed pods; they are non-toxic to dogs.

The trees do not meet the parameters set forth in §3.3.1, Parameters of Removal, of the United Mutual Urban Forest Management plan. Staff recommends denial of this request.

FINANCIAL ANALYSIS

The recurring cost to trim the trees are \$185 each. The estimated cost to remove a tree is \$897 each. The estimated value of the trees is \$3,260 each based on the tree inventory data.

FOR: Landscape Committee

SUBJECT: Tree Removal Request: One Magnolia Tree located at 397-D Avenida

Castilla

RECOMMENDATION

Deny the request for the removal of one Magnolia tree located at 397-D Avenida Castilla.

BACKGROUND

The requestor became a Member in September 2021, and is requesting the removal of one Magnolia tree, *Magnolia Grandiflora*, located in the planter area at the side of the manor.

The reasons cited for the tree removal request is root intrusion and structural damage to the plumbing. There are two additional signatures on the Landscape Request Form in favor of the tree removal (Attachment 1).

Upon inspection, the tree was found to be in good condition. The tree was last pruned in August 2022, future trimming is tentatively scheduled for fiscal year 2027. This tree species is on a five-year trimming cycle.

The height of the tree is approximately 40 feet, with a trunk diameter of approximately 12 inches. The tree is growing approximately 10 feet from the Manor (Attachment 2).

On January 22, 2024, the United Landscape Committee voted unanimously to place this item on hold. They directed staff to bring the item back to the committee next month, with cost to trim the Magnolia tree. The subject of trimming the adjacent Ash tree came up due to canopy conflicts seen in the photos. The Ash tree was las pruned in August 2022, future trimming is tentatively scheduled for fiscal year 2025. This tree species is on a three-year trimming cycle.

DISCUSSION

At the time of the inspection, the tree was found to be in good health with a balanced canopy with no lean. There were no signs of pests or prior pest activity. No noticeable surface roots leading to the manor.

The Plumbing Department was called out in March 2023 and again in January 2024, for a multi-fixture stoppage; roots were not indicated as the cause of the stoppages. Plumbers were out in November 2023, (after this request) to inspect the sewer line; pipes were inspected by camera and no tree roots were observed (Attachment 3). The adjacent unit 397-A was inspected as well without root issue.

It is the recommendation of staff that the tree removal request be denied.

United Laguna Woods Mutual Landscape Committee February 26, 2024 Page 2

FINANCIAL ANALYSIS

The cost to trim the tree is \$250. The cost to trim the adjacent Ash Tree is \$450. The cost of removal would be \$828. The estimated value of the tree is \$4,890 based on the tree inventory data.

STAFF REPORT

DATE: February 26, 2024

FOR: Landscape Committee

SUBJECT: Tree Removal Request: Two Liquidambar Trees located at 519-C Avenida

Castilla

RECOMMENDATION

Deny the request for the removal of two Liquidambar trees located at 519-C Avenida Castilla.

BACKGROUND

The requestor became a Member in January 2013, and is requesting the removal and/or crown reduction of 30% of two Liquidambar trees, *Liquidambar Styraciflua*, located in the turf area at the front of the unit.

The reasons cited for the removal request is tree litter and concerns of broken branches in high winds. There are two additional signatures on the Landscape Request Form in favor of the removal (Attachment 1).

The tree was last pruned in October 2021. Future trimming is tentatively scheduled for fiscal year 2025. This tree species is on a four-year trimming cycle.

The height of the trees is approximately 20 feet tall and 15 feet tall, with a trunk diameter of approximately 16 inches. The tree is growing approximately 25 feet from the Manor and 10 feet from the sidewalk (Attachment 2).

DISCUSSION

At the time of the inspection, the trees were found to be in fair health with a vertical canopy and no lean towards the manor. There were no signs of pests or prior pest activity. There were no noticeable surface roots and the trunk has a favorable flare.

This is an excurrent single leader tree. The tree cannot be crown reduced as it would permanently compromise the tree structure and produce epicormic shoots that do not have solid attachments and create a liability. Liquidambar trees cannot be topped for this reason. As for their removal, the trees are 25' away from unit 519 and any broken branches could only potentially reach the unit in a severely high wind condition.

The trees do not meet the parameters set forth in §3.3.1, Parameters for Removal of the United Mutual Urban Forest Management plan. Staff recommends denial of this request.

FINANCIAL ANALYSIS

The recurring cost to trim the trees are \$185 each. The estimated cost to remove the trees is \$1,449 each. The estimated combined value of the trees is \$9,340 based on the tree inventory data.
